- Build modern-day UI components to improvise application performance.
- Cooperate with designers to create clean interfaces and simple, intuitive interactions and experiences.

Projects

Booking Application

Utilized MERN Stack

Developed front end user experience using react.js,node.js,express and mongodb.

Implemented the react-router-dom to allow nested routing.Used modern UI kit such as Material UI and UI KIT , Used Rest Api for connect with database and JWT for Authentication

Booking App used for booking rooms in certain cities.

Career Consultancy Project

Utilized MERN Stack

Developed front end user experience using react.js,node.js,express and mongodb.

Implemented the react-router-dom to allow nested routing.Used modern UI kit such as Material UI and UI KIT and Used Rest Api for connect with database.

Careers consultants provide advice about training, employment options and career progression to professionals ,freshers and career changers. Careers consultants provide guidance to people making decisions about their career.

Social media Application

Utilized Nodejs

Developed back end using node.js,express and mongodb.

Used certain Rest Api to connect with database.In this social media app user can update,create and delete Post.Users can follow other users and also can like and dislike other users post.

Personal Skills

- POSITIVE ATTITUDE
- GREAT AT TIME AND TASK MANAGEMENT
- DECISION MAKING
- QUICK LEARNER
- PROBLEM SOLVING
- FLEXIBLE IN ANY ENVIRONMENT

Language

English

Malayalam

iMerit

Utilized React js
Recreated front end using react.js,html and css.
Implemented the react-router-dom to allow nested routing.Used modern UI kit such as Material UI and UI KIT.

Asus

Utilized React js
Recreated front end using react.js,html and css.
Implemented the react-router-dom to allow nested routing.Used modern UI kit such as Material UI and UI KIT.

Syngenta

Utilized Bootstrap
Recreated front end user experience using Bootstrap,html and css.

Intern Mantra

Utilized Nodejs
This project is a web application which provides internship for students.I have worked in the backend of the project using Mongodb Node js and Express js
